

HOUSE INDIAN COMMITTEE.

Important Measures Considered
And Agreed Upon.

SOME INDIAN APPROPRIATIONS

Washington, Jan. 23.—The house committee on Indian affairs has practically finished consideration of the Indian appropriation bill. Among the items of interest to the West in an amendment of Delegate Flynn's appropriating \$10,000 in support of the Whitaker orphan home at Pryor Creek, O. T. The committee decided to embody an item appropriating \$75,000 for the education of white children in the Indian territory and \$5,000 for the care of the blind.

Mr. Flynn secured the adoption of an amendment extending the time for leasing allotted lands for farms and grazing purposes in Oklahoma from three to five years, and authorizing the Pottawatomies and absentee Shawnees and the Pottawatomies who secure their lands under the act of 1872 to sell all lands allotted them except eighty acres.

Mr. Flynn also secured an amendment authorizing the sale of lands of deceased Pottawatomie absentees, Shawnees and Miamis.

He further secured the consent of the committee to attach the Kiowa and Comanche agreement to the bill, which provides for the allotment of the lands of these Indians in severalty.

Mr. Curtis, of Kansas, secured the adoption of an amendment abolishing the Quapaw Indian school and providing for the establishment of public schools in its place.

Waste of Money in Books.

Topeka, Jan. 22.—The attention of the legislature will be called, at its next session, to the useless expenditure of public funds for the publication of House and Senate journals. There are at least five tons of the books giving the proceedings of the last session in one of the vaults in the State house. They are doing nobody any good, and are simply in the way. Less than 500 copies of each will fill the demand after each session, and there will be a recommendation that the number be limited to that.

India's Terrible Famine.

Calcutta, Jan. 22.—The council considered the famine situation. The official estimates show the cost to the government of the relief work, etc., to the end of March will be 40,000,000 rupees. About 23,000,000 persons are now affected in British territory and about 27,000,000 in the native states. The viceroy said that the famine area has expanded, surpassing the worst fears, and they were now facing a famine, water and food scarcity of a terrible character. About 3,250,000 persons, he continued, were already receiving relief.

Regarded as Unfriendly.

London, Jan. 23.—The Daily Chronicle says editorially: "According to advice, we have received from Washington, a canvas of the senate and the house of representatives has placed it beyond dispute that congress will not only pass the Nicaragua canal bill, but will pass it in a form directly at variance with the Clayton-Bulwer treaty. This is a statement of decidedly serious importance, and we hesitate to believe that the United States government will commit itself to a course which this country would have to regard as unfriendly."

Men may be just as curious as women, only they're not curious about as many things.

No Open Door in Philippines.

Washington, Jan. 19.—It is said without reservation at the state department, that no notes have been received from any European powers making demands upon this government respecting the "open door" and the Philippines. Such communications as have come from the continental powers have been entirely favorable to the proposition made by the United States respecting China, and all that remains to make the "open door" negotiations a complete success is reducing the arrangement to an absolute and final form.

Quarantine Established.

Topeka, Jan. 19.—The Kansas board of health has established a quarantine against Wagoner, South McAlester and Muskogee, I. T., and Kay county, Oklahoma, owing to the existence of smallpox there. The railroads have been ordered to stop the sale of tickets from those points to Kansas and armed guards are stationed along the southern Kansas line to enforce the order of quarantine.

Kentucky Killer Indicted.

Frankfort, Ky., Jan. 23.—The grand jury has indicted ex-congressman David Colson, who was colonel of the Fourth Kentucky regiment, for murder on two counts. The first charges the willful murder of Lieutenant Ethelbert Scott, one of the principals in the triple tragedy, and the other with the murder of Luther M. De-maree, one of the bystanders who was killed. It is understood that more testimony is to be heard as to the killing of Charles Julian.

CONGRESSIONAL NEWS.

What is Being Done in The Fifty-Sixth General Assembly.

JANUARY SIXTEENTH.

The secretary of the navy appeared before the Senate committee on naval affairs in advocacy of the construction of a Pacific cable. The survey has been completed. The estimated cost is \$10,000,000. The entire length of the cable is estimated at 2,241 knots, which allowed 3 per cent for slack. The present expense of the war department alone, for messages to Manila, is about \$1,000 a day.

The House considered the deficiency appropriation bill. Chairman Cannon of the committee reporting the bill made a general explanation of its items. Mr. Cannon criticized the postoffice department for expending more than had been appropriated for rural free delivery, as shown by the item of \$154,900 asked for in this bill as a deficiency. Chairman Lally of the committee on public lands has prepared a substitute for Delegate Flynn's free homes bill.

JANUARY SEVENTEENTH.

Senator Hoar's resolution of inquiry for general information regarding the Philippine war is discussed and passed. With this division Senator Hale's resolution asking information regarding the American flag by British war ships, was decided to be unwise to take action thereon at this time.

The Senate agreed to vote on the financial bill on February 18.

JANUARY EIGHTEENTH.

Senate met at 1 o'clock after the unveiling of the statue of Daniel Webster. Senator Ross (Vt.) offered a resolution declaring that as the national constitution does not, unaided by congress, extend over the new insular possessions, that sovereignty has been acquired over Puerto Rico and the Philippines by treaty by the United States, and that this government is under duty to extend the same rights for the general welfare of the inhabitants, a separate government is demanded to take charge of them.

Senator Wellington, in an extended speech, argued for independence for Puerto Rico. He said Admiral Dewey had to stay at Manila to suppress anarchy and chaos.

The house also met late. The census bill was taken up. Mr. Hopkins of New York introduced a resolution for the approval of the census committee, the director of the census to contract for printing of the census reports outside of the government printing office.

JANUARY NINETEENTH.

The Senate passed Senator Allen's (Neb.) resolution calling on the president, if not incompatible for information, to advise the representative of the Transvaal had applied to the United States government for recognition and if such application was made, and if it had been accepted.

The Senate passed the bill authorizing the use of stone instead of wood in the construction of dry docks at the navy yards. The financial bill was then taken up. Senate adjourned until Monday.

Mr. Corliss (Mich.) introduced a bill for construction of the Pacific cable to the Philippines. It appropriates \$300,000 and limits the cost to \$3,000,000. A bill was passed to extend the time for building a bridge across the Mississippi river at St. Charles, Mo.

Mr. Payne (N. Y.) introduced a bill to extend the custom laws of the United States to Puerto Rico. That would make the application for the States and Puerto Rico. The pension appropriation bill engaged the attention of the house during most of the session.

JANUARY TWENTY-SECOND.

Senator Turner (Wash.) addressed the Senate on the Philippine question. He charged perjury and bad faith on the part of the government. Senator Platt (N. Y.) offered a joint resolution authorizing the president to invite the government of Great Britain to send a special commission to examine and report on the diversion of waters that are boundaries of the two countries.

This was District of Columbia day in the house. Several minor bills were passed. It was agreed that the clerk of the house should field armories should be referred to the speaker for reference as an original proposition. This question involved the appropriation for the construction of small arms and had been referred to the committee on ways and means. The present action is designed to get it before the committee on ways and means.

Another Law Squelched.

Kansas City, Kan., Jan. 23.—The Harris law, which prescribes jury trials for persons charged with contempt of court, was declared unconstitutional by Judge William G. Holt in the Common Pleas court here. The law was passed in 1897. It was designed to take away from the judges of the courts the right to punish persons charged with contempt of court and give them the right of trial by jury. Judge Holt holds that the law is an abridgement or restriction of the constitutional powers of the court.

Old Soldiers Kept Out.

Leavenworth, Jan. 23.—Since quarantine has been established at the Soldiers' home a number of old veterans have arrived in the city who fully expected admission, but which is now denied them. Nearly all of these old men have arrived here without any money and do not know where to go or what to do. An old veteran arrived on the Burlington from Nebraska and shortly afterwards learned that he could not be admitted at present.

Is This True of Kansas?

Toronto, Ont., Jan. 18.—The superintendent of immigration has received reports from most of his agents in the United States and estimates that nearly 14,000 settlers from the republic have become residents of Canada during the past year. An estimate places the wealth of these persons at \$2,000,000. The prospects for increasing the number of settlers from the United States during the season of 1900 are very encouraging. Kansas and Arkansas supplied the greater part of those who came.

General Buller Gains Position.

London, Jan. 19.—General Buller completely surprised the Boers and occupied the hills beyond Potgieter's Drift, fifteen miles west of Colenso. He followed up the movement by shelling the Boer trenches. In Cape Colony General Methuen has made a demonstration in force, shelling the Boer works. General Gatacre is skirmishing around Monteno and General French has been throwing a few shells at the Boers at Rensberg.

Disabling Freight Cars.

Wichita, Jan. 23.—A peculiar industry of thieving has been discovered by the local police. A gang of thieves has been stealing the packing from the journal boxes of freight cars in the railroad yards and where the thief is not a man who needs the fire himself he sells the stuff for fuel. On account of the toughness of the material and the oil it contains a bunch of it will burn for 3 or 4 hours. Packing was stolen from 190 of the Santa Fe cars here and about \$5 of the Frisco's.

EARTHQUAKE IN MEXICO.

Much Damage to Property—Some
Loss of Life.

FROM PACIFIC TO THE GULF.

City of Mexico, Jan. 23.—News is arriving from the interior points affected by the earthquake Friday night and Saturday morning. Much damage was done to property in Guadalajara and the City of Colima was the scene of terrible experiences, accompanied with loss of life. The City of Mexico came off comparatively unscathed in the quake, few accidents occurring here or in the suburbs, although some adobe huts in the suburbs fell in and one bridge was partly wrecked. The subterranean electric light installation was not harmed. The Church of the Three Kings at Attezhazaleo, in the suburbs, was cracked and will be closed for repairs.

Colima, Mex., Jan. 23.—An earthquake shock began here at a quarter before midnight Friday and assumed serious proportions at Tenimata, many houses being badly injured and some of light construction were wrecked. There was great consternation and people rushed into the streets, some barely escaping with their lives. Seven people were killed outright and sixty were wounded.

Guadalajara, Mex., Jan. 23.—At midnight Friday an earthquake shock cracked the arches and staircase of the palace and the porticos of the University and the De Gallado theater, the latter one of the most massive structures here. The churches of San Francisco and San Jose were damaged. The former is one of the handiwork of the Spaniards on the continent, and is locally known as the golden cup, from the magnificence of its interior. The government has closed Sagrario church, fearing the dome will fall. News from Zapatlan and Zarula state that several houses were demolished. The shock was felt severely at San Blas, on the Pacific, and noises underground were heard, resembling the hoarse rumbling of a heavy sea dashing on shore.

Vera Cruz, Mex., Jan. 23.—The earthquake traveled across the country, reaching here just after midnight Saturday morning. The shock was comparatively light here.

Chickasaw Incompetents' Fund.

Washington, Jan. 22.—Assistant Attorney General Van Dewater, of the interior department, has rendered a decision which was approved by Secretary of the Interior Hitchcock, upon the act passed by the Chickasaw council for the distribution per capita of what is known as the "Incompetents' fund" of the Chickasaw nation. In the original treaty between the United States and the Chickasaws it was provided that certain lands should be sold to create the fund for the incompetents of the nation. This fund amounts now to \$216,000. Under the decision just approved, the incompetents or their descendants, if they can be found and identified, are entitled to the interest on the original amount set aside, and the remainder of the fund can be distributed by the Chickasaw nation.

To Check Grumbling.

Chicago, Jan. 19.—Trading in puts and calls or the payment of any money in connection therewith will hereafter be a dishonorable transaction if carried on in the exchange room of the board of trade. That much was decided by the adoption of a resolution at the first meeting held by the new directors of the board.

This is the first action in the reform movement which carried the new officers and five new directors into office.

Samoa Treaty Ratified.

Washington, Jan. 18.—The senate has ratified the Samoa treaty without division. The ratification occurred in the executive session after two hours of debate which was participated in by a number of senators.

The friends of the treaty repudiated the assertion that the old treaty provisions were annulled. They claimed that this country by the new arrangement retains all the old advantages and avoids the complication liable to grow out of the tripartite agreement. They urged that the opportunity should not be lost, both to get out of an awkward predicament and to control in our own right the harbor of Pago-Pago.

Spanish Prisoners Arrive.

Barcelona, Jan. 20.—The Spanish trans-Atlantic steamer Leo XIII has arrived here from the Philippines with former Spanish prisoners and their families. A majority of them are in a lamentable plight. The town authorities and the Red Cross agents met them and gave assistance to the sufferers.

More Troops From Canada.

London, Jan. 23.—Lord Lansdowne, secretary of state for war, accepted the offer of Lord Strathcona, Canadian high commissioner in London, to provide, distinct from the Canadian contingents, a force of at least 400 mounted men from Manitoba, Northwest Territory and British Columbia, and to arm, equip and convey them to South Africa at his own expense. All will be expert marksmen, rough riders and scouts. It is estimated that the offer will involve an expenditure of \$200,000.

MAGNETIC HEALERS BARRED.

The Kansas Charter Board Assumes
Great Wisdom.

Topeka, Jan. 22.—Magnetic healing concerns hereafter, it is likely, will not be permitted to operate under the sanction of the Kansas laws. Within the past few weeks a half dozen of these enterprises have made application for charters. They have all been held up. The board is investigating their operations. Up to date nothing has been found in their plan of work that entitles them to a charter under the new law. Unless a discovery is made that requires the board to issue them charters, which is unlikely, their applications will be denied. Some time ago the board issued charters to two concerns of this kind. At that time it was in doubt but thought no damage could be done by doing so. Later it concluded that possibly no good could be accomplished and held up other applications of that sort. In case it is finally determined that such concerns have no legal right to have a charter the two charters already issued will be called in.

Trying to Raise the Quarantine.

Topeka, Jan. 23.—Chief Surgeon J. P. Kaster, has visited Oklahoma to make an effort to raise the quarantine declared by the Kansas board of health against Oklahoma. He has arranged to take the members of the territorial board of health on a special train to points along the Santa Fe to secure a correct statement of the situation at each point, then lay his evidence before the Kansas board. Dr. Kaster hopes to have the quarantine raised at once and thereby prevent a serious blow to commerce between Oklahoma and Kansas. Strict quarantine has been declared and the news created intense excitement.

General Anderson Retired.

Chicago, Jan. 23.—Brigadier General Thomas M. Anderson, commander of the department of the lakes, was relieved from active duty under the law which requires army officers to retire at the age of 64.

General Anderson is a nephew of Major Anderson of Fort Sumpter fame and led the first United States forces to land in the Philippines. He entered the army as a private in the Sixth Ohio infantry and served throughout the rebellion receiving a captain's commission in May, 1861. He was made a brigadier general in the regular army March 30, 1899.

Buller Makes an Advance.

London, Jan. 23.—The war office posted the following dispatch from General Buller, dated Spearman's Camp, January 20, evening: "General Clery, with a part of General Warren's force, has been in action from 6 a. m. till 7 p. m. today. By a judicious use of his artillery, he has fought his way up, capturing ridge after ridge for about three miles. "The troops are now bivouacking on the ground he has gained, but the main position is still in front of them. "The casualties were not heavy. About 100 wounded had been brought in by 6:30 p. m."

Extension of Rural Delivery.

Washington, Jan. 20.—Second Assistant Postmaster General Shellenberger has found that it is feasible to permit carriers on star routes to deposit mail in proper receptacles placed along their line of travel. This plan will be started in South Carolina beginning July 1, and will be extended to other parts of the country as rapidly as possible. This innovation makes necessary a change in the postal regulation which forbids mail contractors and their drivers access to the mail matter or any mail locks or keys.

Kansas Penitentiary Quarantined.

Wichita, Jan. 20.—Just after officers had started with the three bank robbers who were sentenced to terms in the penitentiary, the following message reached the Sheriff's office: "To all Sheriffs of Kansas and Oklahoma: Gentlemen—I have placed the Kansas state penitentiary under strict quarantine rules and therefore will receive no more prisoners until further notice. Please govern yourselves accordingly. —J. B. Tomlinson, warden."

Kansas Agricultural College.

Topeka, Jan. 20.—An official report received by Governor Stanley shows that the state agricultural college, under the present management, is in a flourishing condition. The attendance for the first week in the January term was 588, as against 673 for the same week last year, an increase of 32 per cent. The expense of maintaining the institution for the last six months of 1899 was 22 per cent less than that for the corresponding months of 1898. Governor Stanley was very much gratified with the showing.

The Third One Convicted.

Fort Scott, Jan. 23.—The jury in the case of Amos Phillips, the Bates county farmer charged with the murder of Leopold Edlinger, brought in a verdict of murder in the first degree. A new trial will be asked for. Edlinger was from Bates county Missouri, also, and started south in a wagon. Near Fort Scott he was murdered, and two brothers named Silbee, from Kansas City were arrested and convicted. Phillips has made several confessions but has repudiated them.

PENSION SHARKS ATTACKED.

Mr. Curtis Leads an Assault Upon
Commissioner Evans.

ATTORNEY'S FEES HELD UP.

Washington, Jan. 22.—Pension appropriation bill, carrying \$145,245,250, is passed by the house. It was made the vehicle of an attack upon the commissioner of pensions by Mr. Curtis, of Kansas, who was seconded by Mr. Lentz and Mr. Norton of Ohio, Mr. Robinson of Indiana and others. All nveighed against the lack of liberality in the administration of the pension laws. The commissioner was ably defended by a score of members from both sides of the house. Mr. Mahan (Rep., Pa.) charged that the assault upon him had been instigated by the "pension sharks" of this city, who were robbing the old soldiers.

After a prolonged discussion in committee of the whole the bill was reported to the house with the following amendment: "Provided, that the commissioner of pensions shall furnish all necessary blanks to claimants and that said commissioner may in his discretion refuse to pay the fee to attorney of record when he is satisfied that said attorney failed to prepare the case under his or her personal supervision and did not discharge his full duty to claimant."

The amendment was promptly agreed to by the house and the bill was then passed.

Summary of Kansas Weather.

Lawrence, Kas., Jan. 23.—Chancellor Snow of Kansas University makes this summary of the weather that prevailed in Kansas during 1899: "The year 1899 had the coldest February, the coldest July and the warmest October and November in the past thirty years. It had the coldest day, the coldest week, and with one exception, lowest temperature recorded during that period. The range of temperature for the year 121 degrees, has been exceeded only three times. There were less than the average number of zero days, fogs and thunderstorms. January, May, August, October and November were warmer than usual, while the remaining months were cooler than usual."

A Pack Train Captured.

Manila, Jan. 23.—Pack train twenty ponies transporting rations between Santo Tomas and San Pablo, Laguna province, escorted by fifty men under Lieutenant Ralston Thirteenth Infantry was ambushed; two men killed, five wounded, nine missing; pack train lost; lieutenant and thirty-four men returned to Santo Tomas with killed and wounded, affair being investigated. Doret Forty-fifth infantry found insurgents in Batangas mountains prepared in ambush to meet him; he killed eight, wounded three, captured seventeen, one Spaniard, six rifles; his casualties two men slightly wounded.

France Wants American Couplers.

Paris, Jan. 23.—In the chamber of deputies practically the whole week was devoted to the discussion of the railway budget, during which several speakers compared a number of features of French railway workings with the American system. M. Vallant Socialist, deputy representing one of the Seine districts, demanded the adoption of automatic car couplers, declaring that half the mortality among French railway men was due to the imperfect French system of couplers. The director of railways replied that the matter was under consideration and that undoubtedly a suitable system would shortly be instituted.

Right Under Their Noses.

London, Jan. 18.—The Transvaal correspondent of the Times says: "The Delagoa Bay correspondent of the Natal Times asserts that six big Crusnet guns and fifty tons of shells were landed from the French steamer Gironde about the middle of last month under the noses of two British warships and were dispatched to Pretoria, causing much rejoicing at the ease with which contraband of war can run the blockade."

Refused Ten Thousand Dollars.

St. Joseph, Mo., Jan. 19.—Receiver Milton Tootle, of the Central Savings bank, has sprung a surprise on the court and depositors by serving notice that he will not accept one cent for his services. He is entitled to \$10,000. R. A. Brown, receiver's attorney, voluntarily surrenders one-half his fees, or \$2,500. The bank will pay depositors in full, February 1. It failed one year ago. The receiver is warmly commended by the court for the successful and speedy manner in winding up the bank's affairs.

A Second Race.

London, Jan. 23.—The announcement is made that the year 1900 will give the queen several new great grand children. Two have already made their appearance, the crown princess Henry of Prussia having been delivered of a son. The Duke of York expects to again become a father, while several other grandchildren are entertaining similar expectations. The czar and the crown princess of Greece and Princess Feodora of Reuss will also add to Queen Victoria's list of descendants.
